

# International Trade in Services

## Benefits Nebraska's Companies and Workers

### IMPORTANCE OF SERVICES TO THE OVERALL U.S. ECONOMY

- **The United States is the world's leading services exporting nation.** International services markets offer huge opportunities for U.S. firms and their employees, accounting today for nearly one-third of total U.S. exports. Total elimination of global barriers to trade in services could raise U.S. annual income by over \$450 billion or \$6,830 per family of four.
- **U.S. services exports have doubled over the past 10 years.** The United States recorded a \$66 billion surplus on exports totaling \$381 billion in 2005. This surplus was 22 percent higher than in 2004. Sales through U.S. services companies operating abroad measured \$477 billion in 2003. These international transactions support high-paying jobs across the United States.

### IMPORTANCE OF SERVICES TO THE NEBRASKA ECONOMY

- The services sector represents 65 percent of sales by Nebraska businesses, employs 79 percent of the workforce, and pays 77 percent of the state's \$21 billion in wages.<sup>1</sup>
- Services exporters in Nebraska employed over 5,000 people and generated \$45 million in export revenues in 2002.<sup>2</sup> For example:
  - Professional, scientific and technical industry exporters from Nebraska employed 2,100 people and generated \$15 million in export revenues.
  - Telecommunications exporters from Nebraska employed 700 people and generated \$17 million in export revenues.
  - Publishing industry exporters from Nebraska employed 1,700 people and generated \$8 million in export revenues.
- Affiliates of foreign services companies are part of this success. In 2003, companies such as Nestlé (Swiss) and Sodexo (French) had over \$300 million invested in property, plants, and equipment (PPE) in Nebraska and supported over 3,300 Nebraska jobs.<sup>3</sup>
