

Egypt and the Generalized System of Preferences

GSP-eligible products of interest to Egyptian producers or have been exported in the past

This is NOT a complete list – it is based on what Egypt has exported to the U.S. under GSP or researching other exports from Egypt. If a product is not on this list, look up to see if it is eligible for GSP (“A”) by going to: http://dataweb.usitc.gov/scripts/tariff_current.asp That website will also tell you how much duty will be saved by using GSP duty-free entry for your products.

1. Agricultural (for consumers directly or as an intermediate product to go into/on other foods)

- cassava
- chickpeas
- Chongos, unripened or uncured cheese
- cut flowers
- dairy spreads
- dates
- dried carrots
