### TPP Highlights

**Poultry and Products**

Japan and Vietnam will eliminate tariffs. Malaysia will establish tariff-rate quotas for live chicks, poultry meat, and eggs.

**Soybeans**

Tariffs are already low in TPP markets, but soybean producers will benefit from reduced meat tariffs that are expected to create new feed demand. Japan, Malaysia, and Vietnam will eliminate tariffs on soybean oil and soybean meal.

**Wheat**

Japan will create new tariff-rate quotas for wheat and wheat products and eliminate existing tariffs for processed products such as cookies and crackers. Malaysia and Vietnam will eliminate tariffs on wheat and wheat products.

**Dairy**

Japan will eliminate tariffs on cheese and whey and create tariff-rate quotas (TRQs) for whey, butter, milk powder, and evaporated and condensed milk. Malaysia and Vietnam will eliminate tariffs on dairy products. Canada will eliminate tariffs on whey and create TRQs for cheese, fluid milk, butter and other products.

Tariffs are already low in TPP markets, but soybean producers will benefit from reduced meat tariffs that are expected to create new feed demand. Japan, Malaysia, and Vietnam will eliminate tariffs on soybean oil and soybean meal.

**Pork**
Japan will eliminate duties on nearly 80% of tariff lines, including processed pork. Remaining tariffs will be cut and the “Gate Price” system significantly altered. Nearly all Malaysian tariffs will be locked in at 0% and Vietnam will eliminate tariffs.
The Trans-Pacific Partnership (TPP) will boost demand for U.S. farm and food products among nearly 500 million consumers in 11 countries across the Asia-Pacific region. By reducing tariffs and opening new markets for American agricultural products, the TPP will help increase farm income, generate rural economic activity, and support local jobs.
