Puerto Rico

The United States, Mexico, and Canada have reached an agreement to rebalance and modernize the North American Free Trade Agreement into a 21st century, high-standard trade deal. The new United States-Mexico-Canada Agreement (USMCA) will better serve the interests of American workers, farmers, ranchers, and businesses and support mutually beneficial trade leading to freer markets, fairer trade, and robust economic growth in North America.

Exports to Canada and Mexico in 2018

\$886 Million

Exports to Mexico in 2018

USMCA Key Provisions

Intellectual Property

The modernized, high-standard Intellectual Property (IP) chapter provides strong and effective protection and enforcement of IP rights critical to driving innovation, creating economic growth, and supporting American jobs. This includes 10 years of data protection for biologic drugs.

Goods Market Access

New commitments for market access address non-tariff barriers related to trade in remanufactured goods, import licensing, and export licensing.

Digital Trade

The new Digital Trade chapter contains the strongest disciplines on digital trade of any international agreement, providing a firm foundation for the expansion of trade and investment in the innovative products and services.

Agriculture

Important improvements in USMCA will secure greater market access for America's farmers.

Rules of Origin

Innovative rules of origin will encourage more goods and materials to be manufactured in the United Statesand ensure the benefits of USMCA flow to North American workers.

Labor

USMCA's Labor chapter makes new enforceable labor standards a core part of the agreement. This will help level the playing field for American workers and improve wages and labor conditions in North America.

Small Business

New customs and trade rules will cut red tape and make it easier for small businesses to tap into foreign markets and participate in cross-border trade.
