

**2017 GSP Annual Product Review: 2017 Import Statistics Relating to  
Competitive Need Limitations (CNLs), De Minimis Waivers, and Product Redesignations**

This document contains the lists referred to in a Federal Register Notice published April 4, 2018 regarding 2017 annual trade data and reopening the process for the review of products eligible for GSP. These lists are provided for informational purposes only. Interested parties are strongly encouraged to independently research the 2017 trade statistics, using the U.S. International Trade Commission's (USITC) Interactive Tariff and Trade DataWeb site, which can be found at <https://dataweb.usitc.gov/>.

List I shows GSP-eligible articles from beneficiary developing countries (BDCs) that exceeded a Competitive Need Limitation (CNL) by having been imported into the United States in 2017 in excess of \$180 million, or in a quantity equal to or greater than 50 percent of the total U.S. import value for this product in 2017. These products will be removed from eligibility for GSP for the subject countries on November 1, 2018, unless the President grants a waiver for the product for the subject country in response to a petition filed by an interested party. As discussed in the Federal Register Notice referenced above, USTR will accept petitions requesting a waiver of the CNL; however, if a CNL waiver petition has already been filed, an additional petition is not necessary. If imports of a product exceed the 50 percent CNL, but there has been no U.S. production in the last 3 years, a waiver may still be granted under the Not Produced in the U.S. provision of the GSP statute.

List II identifies GSP-eligible articles from BDCs that are above the 50 percent CNL, but that are eligible for a *de minimis* waiver of the 50 percent CNL. Articles eligible for *de minimis* waivers are automatically considered in the GSP annual review process without the filing of a petition. Petitions to deny *de minimis* can be submitted and will be subject to the procedures outlined in the Federal Register Notice referenced above.

List III shows GSP-eligible articles from certain BDCs that are currently not receiving GSP duty-free treatment, but that may be considered for GSP redesignation based on 2017 trade data and consideration of certain statutory factors. Note that products exceeding 50 percent of imports can be considered for redesignation if there was no U.S. production in the last three years (the lack of U.S. production will be one of the factors to be considered for all redesignation petitions). Petitions for redesignation can be submitted and will be subject to the procedures outlined in the Federal Register Notice referenced above.

**List I - GSP-eligible articles from beneficiary developing countries (BDCs) that exceed and are newly subject to potential exclusion**

<b>HTS</b>	<b>Brief Description</b>	<b>GSP Beneficiary</b>	<b>Imports from Beneficiary</b>	<b>Total Imports</b>	<b>Percent Share</b>
