

2011 GSP Annual Product Review: Import Statistics Relating to Competitive Need

Limitations (CNLs), Potential Revocations, *De Minimis* Waivers, and Product Redesignations

The lists contained in this document are those referred to in the Federal Register notice entitled “2011 Generalized System of Preferences (GSP) Product Review: Inviting Public Comments on Possible Actions Related to Competitive Need Limitations,” published in the March 16, 2012 issue of the *Federal Register*. Each list contains, for each article, the Harmonized Tariff Schedule of the United States (HTS) subheading from the 2011 edition of the HTS, the GSP beneficiary developing country (BDC) country of origin, the value of imports of the article for the 2011 calendar year, and the percentage of total imports of that article from all countries.

These lists are provided for informational purposes only. Interested parties are strongly encouraged to independently research the 2011 trade statistics for themselves. The USITC dataweb site can be found at http://dataweb.usitc.gov/scripts/user_set.asp and accessed free of charge.

Some of the subject HTS subheading numbers were changed in the 2012 edition of the HTS as a result of the modifications to the HTS that were necessary or appropriate to conform the HTS to the International Convention of the Harmonized Commodity and Coding System. These modifications were proclaimed by the President under Section 1206 of the Omnibus Trade and Competitive Act of 1988 Act in Presidential Proclamation 8771, February 3, 2012. See International Trade Commission Publication 2476 (December 2011) at http://www.usitc.gov/tariff_affairs/hts_documents/pub4276.pdf for more information.

List I shows GSP-eligible articles from BDCs that exceeded a CNL by having been exported in excess of \$150 million, or in a quantity equal to or greater than 50 percent of the total U.S. import value, in 2011. These products will be removed from eligibility for GSP for the subject countries on July 1, 2012 unless the President grants a waiver for the product for the subject country in response to a petition filed by an interested party. Such petitions for CNL waivers must have been previously submitted in the 2011 GSP Annual Review. (See 76 FR 67531 and 77 FR 10034.) The last column in List I shows those products for which petitions have been accepted and are now under review.

List II identifies GSP-eligible articles from BDCs that are above the 50 percent CNL, but that are eligible for a *de minimis* waiver of the 50 percent CNL. Articles eligible for *de minimis* waivers are automatically considered in the GSP annual review process, without petitions. Public comments (including comments in support of or in opposition to *de minimis* waivers) are invited in accordance with the requirements for submissions set out in the *Federal Register* Notice published Friday, March 16, 2012.

List III shows GSP-eligible articles from certain BDCs that are currently not receiving GSP duty-free treatment, but that may be considered for GSP redesignation based on 2011 trade data and consideration of certain statutory factors. Recommendations to the President on redesignations are normally made as part of the GSP annual review process, and public comments (including comments in support of or in opposition to redesignations) are invited in accordance with the requirements for submissions set out in the *Federal Register* Notice published Friday, March 16, 2012.

List IV shows articles subject to CNL waiver revocation based on the provisions of Section 503(d)(4)(B)(ii) of the 1974 Act, as amended by Public Law 109–432. Recommendations to the President on revocation of these waivers will be made as part of the 2011 GSP annual review process, and public comments (including comments in support of or in opposition to revocations of CNL waivers) are invited in accordance with the requirements for submissions set out in the *Federal Register* Notice published Friday, March 16, 2012.
