

## **GSP: An Overview of the Child Labor Review for Certain GSP Eligible Carpet Lines**

The GSP Subcommittee has initiated a review of the worst forms of child labor in the production of certain hand made carpets imported under the GSP program. The 2004 Miscellaneous Trade and Technical Corrections Act (HR 1047) (the “2004 Act”), as approved by Congress, authorized the President to designate seven tariff lines relating to carpets (5702.51.20 (now 5702.50.20), 5702.91.30, 5702.92.00 (now 5702.92.10), 5702.99.10 (now 5702.99.05), 5703.10.00 (now 5703.10.20), 5703.20.10, and 5703.30.00 (now 5703.30.20)) as eligible for duty-free treatment under the GSP program. The Trade Policy Staff Committee (TPSC) approved the designation of these lines to be eligible for the U.S. GSP program. However, the TPSC conditioned the Administration's addition of these tariff lines under GSP by requiring the GSP subcommittee to conduct a triennial review. That review is to identify whether each beneficiary country is taking steps to eliminate the worst forms of child labor, including the use of bonded child labor, in the production of these types of carpets. If a specific beneficiary country is deemed not to be taking sufficient steps to eliminate the worst forms of child labor, the TPSC will recommend to the President changes in GSP coverage. Such changes would remove carpet lines found to be made with the worst forms of child labor from the list of GSP eligible articles of the beneficiary country in question. Other beneficiary countries may retain GSP benefits for these carpets, provided they are making adequate efforts to combat the worst forms of child labor.
