

rail service may file pleadings before the Board to acquire or subsidize a rail line for continued service, or to impose a trail use or public use condition.

When a line is proposed for abandonment, affected shippers, communities, or other interested persons may seek to preserve rail service by filing with the Board: an offer of financial assistance (OFA) to subsidize or purchase a rail line for which a railroad is seeking abandonment (49 U.S.C. 10904), including a request for the Board to set terms and conditions of the financial assistance; a request for a public use condition (§ 10905); or a trail use request (16 U.S.C. 1247(d)). Similarly, when a line is placed on a system diagram map identifying it as an anticipated or potential candidate for abandonment, affected shippers, communities, or other interested persons may seek to preserve rail service by filing with the Board a feeder line application to purchase the identified rail line (§ 10907). Additionally, the railroad owning the rail line subject to abandonment must, in some circumstances, provide information to the applicant or offeror.

As to trail use, the STB will issue a CITU or NITU to a prospective trail sponsor who seeks an interim trail use agreement with the rail carrier of the rail line that is being abandoned. The CITU/NITU permits parties to negotiate for an interim trail use agreement. The parties may also agree to an extension of the negotiating period. If parties reach an agreement, then they must jointly notify the Board of that fact and of any modification or vacancy of the agreement. There is a one-year period for any initial interim trail use negotiating period (with potential extensions).

The Board makes this submission because, under the PRA, a federal agency that conducts or sponsors a collection of information must display a currently valid OMB control number. A collection of information, which is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c), includes agency requirements that persons submit reports, keep records, or provide information to the agency, third parties, or the public. Under 44 U.S.C. 3506(c)(2)(A), federal agencies are required to provide, prior to an agency's submitting a collection to OMB for approval, a 60-day notice and comment period through publication in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information.

**SUPPLEMENTARY INFORMATION:**

**A. Background**

In the course of this investigation, the U.S. Trade Representative has imposed additional duties on products of China in four tranches. *See* 83 FR 28719 (June 20, 2018); 83 FR 40823 (August 16, 2018); 83 FR 47974 (September 21, 2018), as modified by 83 FR 49153 (September 28, 2018); and 84 FR 43304 (August 20, 2019), as modified by 84 FR 69447 (December 18, 2019) and 85 FR 3741 (January 22, 2020).

For each tranche, the U.S. Trade Representative established a process by which interested persons could request the exclusion of particular products from the additional duties.

On March 25, 2020, USTR requested public comments on proposed modifications to exclude from additional duties certain medical-care products related to the U.S. response to COVID. 85 FR 16987 (March 25, 2020).

On December 29, 2020, USTR announced 99 product exclusions for medical-care products and products related to the U.S. COVID response. The December 29 notice further provided that the U.S. Trade Representative might consider further extensions and/or modifications as appropriate. *See* 85 FR 85831.

These 99 exclusions were later extended until September 30, 2021. 86 FR 13785. On August 27, 2021, USTR published a notice requesting public comments on whether any of these exclusions should be further extended for up to six months. 86 FR 48280. To provide time for USTR to review the comments it received in response to the August 27 notice, the 99 exclusions were subsequently extended. *See* 86 FR 54011 (September 29, 2021).

On November 16, 2021, USTR announced the U.S. Trade Representative's determination to extend of 81 of the COVID exclusions for an additional six months (until May 31, 2022). *See* 86 FR 63438 (November 16, 2021) (November 16, 2021 notice). The notice further provided that the U.S. Trade Representative might consider further extensions and/or modifications as appropriate. 86 FR 63438. These 81 exclusions were subsequently extended through February 28, 2023. *See* 87 FR 33871 (June 03, 2022); 87 FR 73383 (November 29, 2022).

## B. Request for Public Comments

Subsequent to USTR's prior request for public comments regarding the extension of the COVID exclusions in August 2021, the rates of infection of COVID in the United States continue to fluctuate. Domestic production of certain products covered by these exclusions also has increased. In light of these circumstances, USTR is requesting public comment on whether to extend particular exclusions for COVID products for up to six months.

USTR will evaluate each exclusion on a case-by-case basis. The evaluation will examine whether it remains appropriate to exclude certain products from the additional Section 301 duties in light of the changing circumstances, including the spread of variants or subvariants and the increased domestic production and availability of certain products, and taking account of the overall impact of these exclusions on the goals of this Section 301 investigation.

## C. Procedures To Comment on Particular COVID Exclusions

The U.S. Trade Representative's determination considers public comments previously submitted, advice of advisory committees, advice of the interagency Section 301 Committee, and the advice of the White House COVID-19 Response Team. As provided in the November 16, 2021 notice, the exclusions extensions are available for any product that meets the description in the product exclusion. Further, the scope of each exclusion and modification is governed by the scope of the ten-digit HTSUS subheadings and product descriptions in annex B of the November 16, 2021 notice. U.S. Customs and Border Protection will issue instructions on entry guidance and implementation.

The U.S. Trade Representative may continue to consider further extensions and/or additional modifications as appropriate.
